

Since 1995

Kasuma Bearings is an ISO/TS - 16949, ISO 9001 and ISO 14001 certified company. We firmly believe that **“There Is No Other Alternative To Quality”**. We are proud to say that we have developed a variety of bearing like **Taper Roller Bearings, Cylindrical Roller Bearings, Spherical Roller Bearings, Needle Roller Bearings, Thrust Bearings, Clutch Bearings, Ball Bearings, Angular Contact Bearings and special bearings** as per the customer requirements. We have successfully developed and manufactured a wide range of above 4000 bearings. Kasuma uses the most updated measurement and testing technology to enforce rigorous quality checks on all its products. We have incorporated innovative engineering technologies that ensure high qualities and performance in manufacture of advanced system bearing. The production capacity of our company is 6 million bearings annually.

We have successfully developed and manufactured a wide range of more than **4000** different size of BEARINGS

We manufacture bearings for the important applications like Axle transmission, Clutches, pulley, gearbox, wheel, Marine, Industrial Sector, Railways, Industrial Clutches, Aerospace, Agricultural and many more.

After the opening up of the Indian Economy, there were great challenges present for Indian companies but Kasuma converted all challenges into great opportunities. Kasuma is competing at the global level and has taken concrete steps by exporting excellent quality bearings. Company's expanding footprint ensures its global presence with export operations in countries like Europe, U.S.A, U.K, Turkey, South Africa, U.A.E, Malaysia and many other Asian Countries too.

Kasuma is passing through the trajectory of rapid growth by achieving a high growth rate since its inception. Export penetration and inclination has helped Kasuma to establish goodwill among the foreign buyers and distributors. The company is passionate about its business, but is also living the life of a true corporate citizen taking care of each and every entity affiliated directly/indirectly.

We look forward to fulfill all our commitments towards our existing as well as new customers and serve their interest by every possible means. We are also planning to make a place in the European market with our variety of bearings, which are applied in various fields. Our aim is continual improvement in our product as well as Quality Management System as we wish to nourish the level of customer satisfaction to customer delight.
