ALL ABOUT US

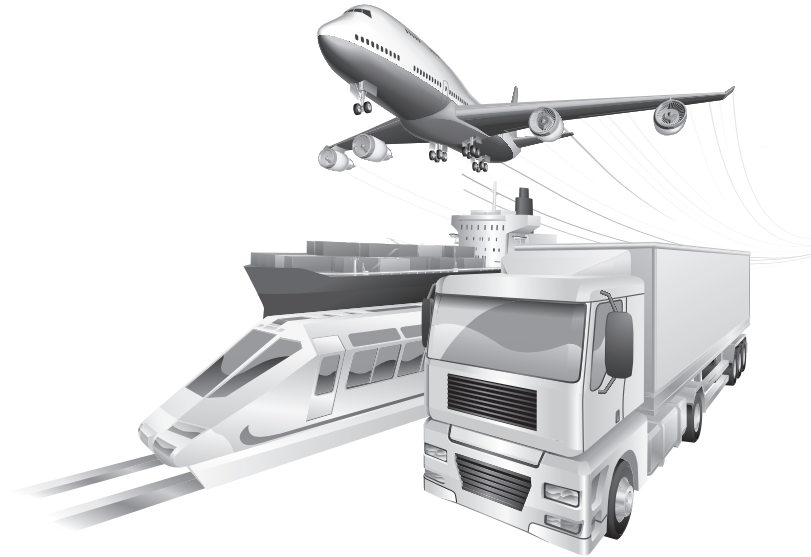

Kasuma uses the most updated measurement and testing technology to enforce rigorous quality checks on all its products.

We have incorporated innovative engineering technologies that ensure high qualities and performance in manufacturing of advanced system bearing. The production capacity of our company is 6 million bearings annually.

Our teams collaborate across disciplines.
It leads to smarter work.

We manufacture bearings for applications in
Automotive, Industrial, Agricultural,
Marine, Railways, Aerospace
and many more

After the opening up of the Indian Economy, there were great challenges present for Indian companies but Kasuma converted all challenges into great opportunities. Kasuma is competing at the global level and has taken concrete steps by exporting excellent quality bearings. Company's expanding footprint ensures its global presence with export operations in countries like Europe, U.S.A, U.K, Turkey, South Africa, U.A.E, Malaysia, Brazil , Russia, and many other Asian Countries too.

Kasuma is passing through the trajectory of rapid growth by achieving a high growth rate since its inception. Export penetration and inclination has helped Kasuma to establish goodwill among the foreign buyers and distributors. The company is passionate about its business, but is also living the life of a true corporate citizen taking care of each and every entity affiliated directly/indirectly.

Our values & the key to great relationships

01

BELIEVE IN DIGITAL

Digital isn't the word of the moment. It's the way forward.

02

BELIEVE IN QUALITY

Mass production is the quickest way to irrelevance.

03

BE PASSIONATE

The way to greatness is to believe in what you're doing.

04

FORM WITH FUNCTION

Design is only effective when it supports the experience.

05

EXPECT CREATIVITY

Everyone has something to bring to the table.

06

ITERATE & DELIVER

Experiment and collaborate. Be ambitious, exceed expectations.

OUR SERVICES

We realize a new digital products and brand communication that change the way companies do business

We look forward to fulfill all our commitments towards our existing as well as new customers and serve their interest by every possible means. We are dedicated to make a place in the global market where we are currently not present with variety and quality of our bearings, which are applied in various applications. Our aim is continual improvement in our product as well as Quality Management System as we wish to nourish the level of customer satisfaction to customer delight.

Some USP's of Kasuma [Unique Selling Propositions]:

- Developed a Vast Range of more than 4000 different types of bearings
- Consistency in Quality
- Products manufactured as per IS Standard
